

**Amendments To The Specification:**

At page 3, line 14, please insert the following text:

**Brief Description of the Drawings**

Figure 1 is a graph of H<sub>2</sub>O<sub>2</sub> conversion with and without CO<sub>2</sub> for TS-1 recycling at 40 °C.

Figure 2 is a graph of H<sub>2</sub>O<sub>2</sub> conversion versus number of reactions reflecting catalyst stability in 1-octene epoxidation with H<sub>2</sub>O<sub>2</sub> under scCO<sub>2</sub> conditions.

Figure 3 is a graph of turnover number (TON) in fresh and recycled catalyst.

Figure 4 is a graph of H<sub>2</sub>O<sub>2</sub> conversion and epoxide selectivity comparing methanol with and methanol and CO<sub>2</sub>.

Figure 5 is a graph of H<sub>2</sub>O<sub>2</sub> conversion and epoxide selectivity at different ratios of solvent to substrate.
